NOVEMBER 3, 2022

Thanksgiving is approaching, and that means it's time to think about that all-important dinner.

If you're interested in outsourcing the cooking this year, North Texas restaurants are offering traditional holiday dinners, barbecue feasts and plenty of pies, with both takeout and dine-in options.

But diners should consider making plans soon, as avian influenza is causing a nationwide turkey shortage and higher prices. Reservations are recommended or required at most places.

Eatzi's
