

Eatzi's Passover Menu Heating Instructions

Heating and serving your Passover feast from Eatzi's is simple and hassle-free. Follow the provided heating instructions to ensure all your dishes are ready to serve at the same time, whether at the table or on a buffet. Keep in mind that oven temperatures may vary, so use these instructions as a guide to achieve the best results with your oven.

• Preheat the oven to 350°F

- Place the item with the longest heating time in the oven first, adding each dish as the time difference passes
- Lay out serving bowls and platters in advance to quickly transfer food once it's hot and out of the oven

Notes:

- Transfer food to oven-safe containers before heating
- If instructed to heat "covered," use aluminum foil as the cover
- Rotate items in the oven as you add new dishes by moving existing items to the front and placing new additions in the back
- Avoid stacking items. If stacking is necessary, rotate items to ensure they are not on top for the entire heating process.
- Keep the oven door closed to maintain a consistent temperature
